

**NHGRI SAMPLE REPOSITORY FOR
HUMAN GENETIC RESEARCH
STATEMENT OF RESEARCH INTENT AND SECONDARY DISTRIBUTION**
(Continued)

Part III: Disease or trait(s) of interest

- A. Is your research project focused on the study of one or more specific diseases, characteristics, or traits?
 Yes No
- B. If yes, please indicate the specific disease or trait(s) that you plan to study in this research project.

Part IV: Select the one category that best describes your research intent

- DNA Sequencing: One or More Genes or Regions
- DNA Sequencing: Whole Genome
- Education
- Epigenetics/Methylation/Chromatin Structure
- Evolutionary/Phylogenetic Studies
- Functional Studies: Cell Cycle Control/Cell Signaling
- Functional Studies: DNA Repair
- Functional Studies: Response to Chemicals/Toxins/Drugs
- Functional Studies: Not Otherwise Specified
- Gene Expression
- Genotyping/Haplotyping
- Mapping Genes/Breakpoints
- Proteomics
- Reference Material: Clinical/Diagnostic Genetic Testing
- Reference Material: Instrument Validation or Training
- Reference Material: Proficiency Testing
- Reference Material: Research Use
- Other: Please specify _____

**NHGRI SAMPLE REPOSITORY FOR
HUMAN GENETIC RESEARCH
STATEMENT OF RESEARCH INTENT AND SECONDARY DISTRIBUTION**
(Continued)

Part VII: Please provide information about proposed secondary distribution, if any.
Select which category best describes your usage.

- These samples will be used only in the Principal Investigator's laboratory by his/her staff under his/her direct supervision.**

- These samples will be shared with one or more Principal Investigators for a single research study**

Principal Investigator agrees that sample use is for a single project only and that any remaining material will be returned or destroyed upon completion of the project. All collaborating Principal Investigators must have a current NHGRI Assurance Form on file. Please supply name, institution, title, address and contact information for each collaborator:

- These samples will be distributed for use as biological reference materials**

Please describe the nature of the project:

Part VIII: Certifications

By completing this form, I certify that I have read and agree to abide by the policy regarding use of samples in the NHGRI SAMPLE REPOSITORY FOR HUMAN GENETIC RESEARCH. Please complete this checklist:

- I understand and will fully comply with the NIH Policy on Enhancing Security Measures for Human Biospecimens (NOT-OD-25-160), as well as associated NOT-OD-25-083.
- I certify that no NHGRI Repository human biospecimens or data shall be directly or indirectly transferred, distributed, shipped, shared, sublicensed, accessed, analyzed, stored, or otherwise made available to any institution, entity, affiliate, subsidiary, branch, contractor, or individual located in a Country of Concern, including but not limited to China (including Hong Kong and Macau), Cuba, Iran, North Korea, Russia, Venezuela, or any countries added to the policy by the NIH.
- I will not redistribute samples unless the options above have been reviewed and approved by Coriell.
- I will not use these samples for new studies unless I provide Coriell with a new Statement of Research Intent.
- I will make sure that my collaborator(s) are aware of and will abide by the NHGRI Repository's policy regarding secondary distribution of samples.
