

## Human and Vertebrate Animal Tissue Form (6B)

Required for research involving fresh/frozen tissue (including primary cell lines, human and other primate established cell lines and tissue cultures), blood, blood products and body fluids. If the research involves living organisms please ensure that the proper human or animal forms are completed. All projects using any tissue listed above must also complete Form 6A.

### To be completed by Student Researcher

1. What vertebrate animal tissue will be used?
  - Fresh or frozen tissue sample
  - Fresh organ or other body part
  - Blood
  - Body fluids
  - Primary cell/tissue cultures
  - Human or other primate established cell line

**If cells are obtained from an established cell line, detail the source and catalog number in item #2.**

**If experimentation is conducted at a research institution, upload a copy of the Institutional Animal Care and Use Committee certification. The document should include the name of the institution, the title of the study, the IACUC approval number and the date of the IACUC approval. The certification must also correspond to the date of experimentation.**

source and catalog number.

institution attach a copy of the IACUC approval number and

### To be completed by the Qualified Scientist or Designated Supervisor:

- I verify that the student will work solely with organs, tissues, cultures or cells that will be supplied to him/her by myself or qualified personnel from the laboratory; and that if vertebrate animals were euthanized they were euthanized for a purpose other than the student's research.

**AND/OR**

- I certify that the blood, blood products, tissues or body fluids in this project will be handled in accordance with the standards and guidance set forth in Occupational Safety and Health Act, 29CFR, Subpart Z, 1910.1030 - Blood Borne Pathogens.
