Vertebrate animals include amphibians, reptiles, mammals, birds, and some fish.

Student name, project title, and items #1-3 are required. Complete items #4, 5 if necessary.

Form 5A must be completed and reviewed by a Scientific Review Committee prior to experimentation. If a student’s school does not have a SRC, Coriell can act as the SRC and approve the project.

At minimum, the SRC Chair must review, approve and hand-sign Form 5A. The SRC determines if a Veterinarian or Qualified Scientist must also review and approve the project.
